

KRK ISLAND JEWELS OF CROATIAN KVARNER

The island of Krk is situated on the 45th parallel that is to say, exactly between the Equator and the North Pole. This privileged position allows the island to have an exceptional climate of this part of the Mediterranean. Krk is the island of the sun with more than 2500 hours of sunshine a year. The city of Krk has preserved throughout two millennia their appearance and character. All the while life took place on the same streets, the same places, to the same houses, churches... The whole city is a monument to the life, culture, a constant love for the stone, earth, the sea, and the angel on the top the bell tower indicates, as the to the navigators of the past, the wind direction. The charm of Krk touch your heart and no doubt you will find here your little paradise.

6 days staying on the island Krk. Discovery of the Gulf of Kvarner: Krk, island of Cres, Opatija and Rijeka, Plitvice Lakes ...

To receive the full, detailed program and prices, [please send us an email](#) specifying whether you are travel agency or private people; the number of interested persons; the desired dates; if your program request is based on groups or individuals. We process your request as quickly as possible. Thank you
